SUBJECT:

PROCEEDINGS

EIGHTH ANNUAL FLORIDA DAIRY PRODUCTION CONFERENCE

May 11-12, 1971

Dear Dairy Cooperator:

The Eighth Annual Florida Dairy Production Conference brought together authoritative speakers on topics of current major interest to the progressive minded dairymen and agri-business friends in attendance. Use of dairymen who have carried out specific practices successfully along with college men and other speakers assured a practical approach to the problems and information on their solution.

Appreciation is expressed to all who participated in making it a successful Conference. We think the Proceedings with resumes on the different topics will serve as a reminder and source of information for reference.

Special appreciation is expressed to the three major milk producer associations who contributed to the planning, financing and publicity of the Dairy Conference.

Sincerely yours,

Barney Harris, Jr.
Extension Dairy Nutritionist
and Conference Chairman
