January 23, 1990

Dear Symposium Participants:

We welcome you to the First Annual Florida Ruminant Nutrition Symposium. The decade of the nineties promises changes of astonishing dimensions in our animal feed and livestock industry. Technological advances of unbelievable magnitude will offer mind boggling options for new practices of beef and dairy production which will challenge our ability to adapt and compete in this new world of the future. This symposium has been designed to provide a variety of timely and special topics of interest to us all as we begin our task to meet and conquer these challenges of the nineties.

Special appreciation is expressed to the speakers at the symposium and to the sponsors: Bernie Haskins Company, Inc.; Tenneco Minerals Company; Pitman-Moore, Inc.; Chr. Hansen's Biosystems; and US Sugar Corporation for their generous support and contributions to the symposium.

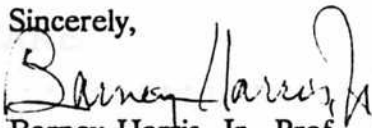

Special thanks and appreciation to the planning committee for their work in arranging the program. Also, we express our gratitude to the Animal and Dairy Science Departments of IFAS for their assistance and support.

The American Registry of Professional Animal Scientists have assigned 6 units of Continuing Educational Units to this symposium. We trust that you will find the symposium both enjoyable and educational.

Sincerely,

Bernie Haskins, Owner
Bernie Haskins Company, Inc.

Sincerely,

Barney Harris, Jr., Prof.
Dairy Science Department
